

Position Announcement
MSCNS is announcing the following opening:

Network Engineer IV
Infrastructure Engineer
Salary Range: \$60,000 to \$65,000/yr

Qualifications

- At least a 2 Year Degree in IT related field preferred.
- Need at least current CCNA certification.
- 10+ years field experience a must.
- Strong WAN/LAN troubleshooting experience.
- Strong experience with VPN setup and administration.
- Strong experience with Firewall setup and administration.
- Strong experience with Routing/switching/security/wireless/VoIP.
- Strong experience in network design and implementation.
- Experience and understanding of physical cabling principles.
- Experience with implementing backup solutions.
- Experience with Microsoft Active Directory/DNS.
- Ability to handle PC and printer related issues.
- PBX/Key System telcom experience a plus.

Duties

Work with MSCNS sales staff and other engineers to design and implement a wide range of IT products and solutions for MSCNS clients. Must possess solid people skills. Also must be able to work at times with very limited supervision.

There will be very minimal sales work involved, nothing more than proposing solutions to customers while onsite. Must be able to work with celebrity clients in confidence.

About MSCNS

Foundation for Independent Living dba Mountain State Computer and Network Solutions is a registered 501(c)(3) non-profit entity. MSCNS delivers high quality IT products and services to a wide range of home and business users. The profits of MSCNS go to help fund services for people with disabilities.

We are the developers of the Heads Up line of emergency notification mobile apps (Huntington, Beckley/Raleigh, Hancock). We have over 400 active clients in Kentucky, Ohio, and West Virginia.
